EDUCATION

Claremont McKenna College, Claremont, CA **May 2027**
Bachelor of Arts in Economics, Master of Arts in Finance, and Data Science Sequence
- GPA: 3.67 out of 4.00
- Awards: Robert Day Scholar

Bocconi University, Study Abroad in Milan, Italy **Sep 2025 – Dec 2025**

EXPERIENCE

EPAM Systems, Los Angeles, CA **Jun 2026 – Aug 2026**
FP&A Junior Analyst
- Automated weekly sales pipeline report by reverse-engineering undocumented reporting logic and building Claude-based workflow, reducing hours-long manual process to a ~12-minute, source-traceable run costing <$1
- Benchmarked billing rates across 42 roles and 10 regions, finding above-benchmark U.S. roles ~9% over market, below-benchmark LATAM roles ~10% under, and role mismatches that reframed the problem
- Restructured static CPI and Wage Inflation Excel into dynamic two-tool data visualization and analytics platform (Country Comparison, Weighted CPI Calculator), supporting deal discussions and annual rate negotiations

Kite Realty Group, Oak Brook, IL **Jun 2025 – Aug 2025**
Insurance and Risk Management Intern
- Collaborated cross-functionally on regional, demographic, and financial analysis to recommend 3 grocery-anchored acquisition targets to C-suite leadership
- Updated statement of values across 180 retail properties, reconciling COIs and leases ahead of brokerage renewal
- Managed tenant stakeholder communications, clarifying insurance details after a natural disaster at the property

Graphite Group, Claremont, CA **Sep 2024 – Present**
Senior Advisor / Consultant
- Mentor 2 first-time project leads on client strategy and team management, drawing on my prior engagements
- Built lighthouse-client targeting framework for B2B messaging platform client through primary industry research
- Analyzed homeschooling market to shape entry points and GTM strategy for a girls' online STEM course client

Lowe Institute of Political Economy, Claremont, CA **Sep 2024 – May 2026**
Data Journalist / Social Media Coordinator
- Rebuilt entire digital presence – launched new blog, established Instagram presence, and grew audience by 250%
- Applied Stata to analyze economic datasets and translate quantitative findings into published research articles

PROJECTS

Venture Capital Investment Project, Milan, Italy **Sep 2025 – Dec 2025**
- Built a 5-year, 3-scenario model on 13 KPIs (CAC, ACV, churn, take rates) for a real Italian B2B SaaS payments startup; valued it using the VC Method, First Chicago, and DCF
- Evaluated a proposed €1.6M investment for a 12.6% stake (33.7% investor IRR, 4.3x multiple, above typical Series A expectations); recommended a board seat and information rights to cover downside risk
- Independently rebuilt the group's model after finding a foundational assumption error a week before the deadline, restructuring it so 4 teammates could contribute post-finals; earned the highest grade among all project groups
